Soarcrest Realty: Website Copy & Build Blueprint

Prepared October 2026 for the Soarcrest Realty website (5 pages, built in Google AI Studio, form connected to Google Sheets via Apps Script)

How to use this document

Part 1 is the full website copy: global elements, Home, About, Services, Properties and Contact.

Part 2 is the Book-a-Call form: every field, option, validation rule and confirmation message.

Part 3 is the back-end blueprint: how the form reaches Google Sheets, the Apps Script spec, and a ready-to-paste prompt for Google AI Studio.

One conversion goal runs through everything: every button, banner and link ends at the same place, the free discovery call form.

Rules I followed from your brand guide: no guarantees, no invented testimonials or statistics, every yield labelled gross or net, risk named beside opportunity, no competitors named, "title verified" never claimed without a solicitor's opinion. Anywhere a real fact is missing, you will see **[NEED FACT]**. Fill those in before launch rather than letting anyone guess.

PART 1: WEBSITE COPY

Global elements (appear on every page)

Navigation: Home · About · Services · Properties · Contact

Persistent button (top right, and sticky on mobile): Book a Free Discovery Call

Every CTA button on the site links to the Book-a-Call form. Suggested button wording, rotated by context so it never feels repetitive:

- Book a Free Discovery Call (primary, use most often)
- Tell Us What You're Looking For
- Book My Call
- Start With a Conversation
- Talk to a Named Advisor

Footer copy:

Soarcrest Realty is an Abuja-based property brokerage helping Nigerians at home and abroad buy vetted, income-generating residential property.

We find it. We verify it. We negotiate it. We stay beside you after.

Office address: **[NEED FACT]** · Phone/WhatsApp: **[NEED FACT]** · Email: **[NEED FACT]**
Registered company / RC number: **[NEED FACT]** · SCUML registration: **[NEED FACT, show only once registered]**

Footer disclaimer (small print): This website is for information only. It is not legal, tax or investment advice. Rental yields and property values are never guaranteed, and figures shown are estimates with their assumptions stated. Every transaction should be reviewed by a qualified Nigerian solicitor, and tax questions belong with a qualified tax adviser.

PAGE 1: HOME

Page job: make the visitor feel seen, replace doubt with possibility, and get them to book a call.

Section 1: Hero

Headline: Yes, you can buy property in Nigeria. And you can know it's real before you pay.

Subheadline: Soarcrest Realty finds, vets and negotiates income-generating homes for Nigerians at home and abroad. Then we stay beside you after the deal is done.

Primary button: Book a Free Discovery Call

Under the button: A conversation, not a sales pitch. Booking costs nothing.

Section 2: The honest opening

Headline: Let's be honest about what you're probably thinking.

You've been thinking about property for a while. Maybe you've got savings that aren't doing enough. Maybe you're abroad, sending money home, wanting something solid to show for it. Maybe you've got a lump sum and a sinking feeling that the wrong decision could cost you years.

And then there's the voice in the back of your head:

"What if the documents are fake?" "What if someone else already sold it?" "What if I pay, and the project never gets finished?"

Those aren't silly questions. They're the right ones. Forged documents, double sales and abandoned projects are real problems in this market, and anyone who tells you otherwise is selling you something.

So we're not going to ask you to ignore the doubt. We're going to build the whole company around it.

Section 3: The shift

Headline: Here's what we do differently.

Most agents show you listings and hope you fall in love.

We start somewhere else. Before we show you a single property, we ask what income you want, over how long, and what you're not willing to risk. Then we go and look at the plumbing.

That's not a figure of speech. Every property we put in front of you has been inspected: roofing, plumbing, electrical, structure, interior. You get the findings in writing, with photos and video, before you decide anything.

Then the title gets checked by an independent solicitor, and you see the result in writing before the main payment moves.

Button: See How the Process Works → *(anchors to Section 5 below)*

Section 4: What you get (three-column block)

Headline: Find. Verify. Negotiate. Stay.

1. We find. We work from your budget, your goal and your timeline, not from whatever we happen to have in stock. You score every shortlisted property from 1 to 10. If it doesn't clear your bar, we keep looking.

2. We verify. Physical or live-video inspection. A written condition report. A title search and a solicitor's written opinion. You see the evidence, not our assurance.

3. We negotiate and stay. We negotiate the terms, track every stage of the transaction, and remain involved after completion. If something needs sorting out later, you're not on your own.

Section 5: How it works

Headline: From first call to keys in hand. No guesswork.

We built the process so you never wonder what's happening. At every step, you can see the proof.

Step 1. Book a call. Fill in a short form. A named person gets back to you. No complicated onboarding.

Step 2. We write your brief. Budget, goal, income type, timeline, risk tolerance, on one page. You sign it off.

Step 3. We search and shortlist. You get options with scores and reasons.

Step 4. We vet. Inspection, photos, video walk-through, written condition report.

Step 5. You decide. Review the report and the tour. We negotiate basic terms. You pay a deposit only when you're ready.

Step 6. We verify the title. An independent solicitor checks the document chain and gives you a written opinion before further payment.

Step 7. Completion. Payment per the contract, deed executed, consent and registration tracked, keys handed over.

Step 8. We stay. Optional property management and periodic owner reports, so someone is still looking after the asset.

The idea running through all eight steps: **you carry none of the operational load.** You pay us to find the house, vet the house and make sure the deal goes smoothly, without the endless back-and-forth.

Button: Book a Free Discovery Call

Section 6: Opportunity and risk, side by side

Headline: We'll tell you what can go wrong. In the same breath as what can go right.

You'll hear the upside from us: rental income, short-let income, long-term appreciation. You'll also hear the part most people skip.

- **Yields are never guaranteed.** Quoted gross yields in Abuja's investor areas are typically in the mid single digits, and net yields are lower after service charges, repairs, vacancy and tax. We'll show you the assumptions behind every number.
- **Short-let isn't automatically better.** Some Abuja buildings are oversaturated with short-stay units. We model long-let and short-let for every property, and short-let only wins if it clears the bar after costs.
- **Off-plan carries the highest risk.** Delays, cost overruns and non-delivery happen. We only work with developers who have delivered projects, and we advise on staged payments tied to milestones.
- **Title is not a formality.** A Certificate of Occupancy on its own isn't the end of the story. Consent and registration matter too, and we check what actually exists.

If that sounds more cautious than you expected from a property company, good. That's the point.

Section 7: Is this for you?

Headline: Fair question. Here's who we're built for.

We're a good fit if you:

- are buying primarily as an investment, for rental income, short-let income or appreciation
- have, or can pool with others, roughly ₦50 million or more
- would rather pay for proper vetting than chase the cheapest listing
- think in strategy and timelines ("I want to buy in a growth corridor now and build in five years")
- live abroad and need a trustworthy partner on the ground

We're probably not the right fit if you:

- are buying a one-off personal home with no investment angle
- want the lowest price above all, and would rather skip vetting, photography or a proper process

No judgement either way. It's a focus decision. Our whole way of working is built for people who value process and invest for a return. And if you're not sure which side you're on, that's exactly what the discovery call is for.

Section 8: Diaspora block

Headline: Living abroad? We're your eyes, hands and lawyer on the ground.

You can't pop over on a Saturday to check the plot. You shouldn't have to trust a relative's word, or an agent's WhatsApp photos, either.

Here's what working with us looks like from wherever you are:

- A video call with a **named advisor**, scheduled around your time zone
- A **short video** for every shortlisted property, with honest pros and cons
- A **live video inspection** with you watching
- A copy of the **registry search** and a **solicitor's written opinion** before you pay
- Payment instructions **confirmed on a recorded call and in writing**, paid only to the verified seller or developer's account, or a solicitor's client account. Never to an individual.
- Receipts back to you **within one working day**

Button: Book a Call That Fits Your Time Zone

Section 9: Co-investment block

Headline: Not enough for a property on your own? Pool it. Properly.

Friends, family and colleagues buy property together all the time. They also fall out over it, because the agreement was a handshake.

We structure shared-ownership purchases the way they should be structured: a written co-ownership agreement setting each person's share, how decisions are made, who manages the property, what happens if someone wants out, and how income and costs are split.

Four people at ₦25M each is a ₦100M property, owned by people who can name each other, under a contract they all understand.

Button: Talk Through a Pooled Purchase

Section 10: Proof

Headline: Don't take our word for it.

[NEED FACT: client testimonials with written permission to use names and faces. Do not use placeholders live. Use only real, approved testimonials.]

Layout suggestion: three testimonial cards (name, location, one-line outcome), then a link to a sample, anonymised condition report ("See what a vetting report looks like").

Until real testimonials exist, replace this section with the sample condition report and the verification checklist. Proof of process is still proof.

Section 11: Quick answers

Headline: The questions you're about to ask.

Is it actually safe to buy property in Nigeria? It can be, when the process is followed. The risks are real: forged documents, double sales, unfinished projects. The protection is verification before payment: check the title, check the seller, inspect the property, pay through traceable channels.

Why would I pay a search fee? Because proper search and vetting take paid time from people who actually go and look. The fee funds a process that protects you, and it's what separates a managed search from a list of ads. **[NEED FACT: fee amount, what it covers, and the exact refund terms.]**

Do I have to pay anything to book the call? No. The discovery call is free, and nothing is asked of you before it.

What if I don't know much about property investment? Then you're in the right place. We explain every term the first time it comes up, in plain words.

What happens after I buy? We stay involved. If something comes up, we help resolve it with the seller or developer and refer legal disputes to qualified counsel. Optional property management is available too.

Button: Still Have Questions? Ask Us on a Call

Section 12: The bigger picture (Soarcrest City teaser)

Headline: And yes, we're thinking bigger than one house.

Over time, we want to build something that proves property can create value far beyond bricks and land: a solar-powered estate where homes, workspaces and a startup community live together.

It's a plan and a direction, not a product on sale, and we're not taking reservations or deposits for it. What earns us the right to dream is the standard we hold today: vet first, verify first, protect the client first.

Link: Read our story → *(About page)*

Section 13: Final call to action

Headline: Ready to find out what's actually possible for you?

Tell us your budget, your goal and your timeline. We'll tell you what's realistic, what to watch out for and what we'd do next. No pressure and no pitch. Just a straight conversation with a person who knows this market.

Primary button: Book a Free Discovery Call

PAGE 2: ABOUT US

Page job: build trust through a clear point of view, show the why behind the company, and convert the reader who wants to know who they're dealing with.

Section 1: Hero

Headline: We started with one belief: more people should be able to own property.

Subheadline: And one uncomfortable observation: most people who want to invest in Nigerian property have been scared off by the process, not by the price.

Section 2: Why Soarcrest exists

Headline: The problem we couldn't ignore.

Talk to enough people about buying property in Nigeria and you hear the same stories.

A plot that was sold twice. A project that stopped halfway. A document that turned out not to mean what everyone said it meant. An agent who vanished the day after the commission landed.

For a lot of people, those stories became the whole reason not to try. Property felt like something that happened to other people: wealthier ones, better connected ones, people with someone "inside".

We didn't think that was a fair outcome. The problem isn't that Nigerians can't invest in property. It's that too many have been asked to trust people who haven't earned it.

So we built a brokerage around earning it.

Section 3: The founder's story

[NEED FACT: Write 3 to 5 short paragraphs in the founder's voice.]

Prompts to answer, in plain words, so this section is real rather than polished:

- *What moment made you decide this needed to exist? A personal experience, something you saw, something someone told you?*
- *What did you see other agents get wrong?*
- *What do you want a client to say about you five years from now?*
- *Names, roles and photos of the people clients will actually speak to.*

Do not invent a backstory. A short true story beats a long polished one.

Section 4: What we stand for

Headline: Four things we won't trade for a sale.

Integrity over the close. We don't exaggerate to push a deal. If a nearby landmark doesn't move the value much, we won't pretend it does.

Protection is intentional. Deals can go wrong. That's real estate. They won't go wrong because we cared more about closing than about you.

Transparency, to the limit of the law. You see the condition report, the search results and the receipts.

We stay after the deal. If something goes wrong after completion, we're the hand that helps you sort it out.

Section 5: How we think (the investor mindset)

Headline: We talk about property the way an investor would.

Not "4 minutes from the airport." Not "dream home." We talk in income, strategy and timeline.

A neighbourhood isn't a lifestyle. It's a thesis: who rents here, what's driving demand, what the infrastructure is doing, what the watch-outs are. Some districts trade yield for capital security. Others trade security for growth. The right answer depends on what you want your money to do.

And we'll never hand you one glossy number with no source. When we quote a figure, we label it gross or net, show the range and explain the assumption.

Section 6: Why people trust the process

Headline: Trust isn't a slogan. It's a checklist.

Here's what sits behind every property we put in front of a client:

- Physical or virtual site vetting before it ever reaches you
- A written condition report: structural, plumbing, electrical and aesthetic
- Independent title verification by a qualified solicitor, shared in writing
- Direct relationships with owners and developers, rather than layers of sub-agents
- Partnerships only with developers who have delivered projects
- Legally structured co-ownership agreements where several investors share a property
- Payments only through traceable, documented channels, into accounts in the name of the verified seller or developer, or a solicitor's client account

---

Section 7: Straight talk about money

Headline: How we get paid.

You deserve to know where our incentives sit.

- Serious buyers pay a **search and vetting fee** that funds a dedicated, accountable process, **[NEED FACT: partly refundable if we don't deliver, confirm exact terms before publishing]**.
- When a deal completes, Soarcrest earns a **commission**, paid according to the written agreement. We'll tell you in writing who pays it.
- On co-investment deals we may also manage the asset for an ongoing fee, agreed upfront.

Nothing is hidden, and nothing is a surprise on completion day.

Section 8: Credentials

Headline: Who we are on paper.

Registered company name and RC number: **[NEED FACT]** SCUML (anti-money-laundering) registration: **[NEED FACT, show only once registered]** Professional memberships: **[NEED FACT, list only those that apply to Soarcrest's activities]** Office address: **[NEED FACT]** Team: **[NEED FACT: names, roles and photos]**

Ask us for any of these documents at any time. We'd rather you check.

Section 9: Where this is going

Headline: The long game.

Our ambition is to become the most trusted name in African real estate investment, and to change how value is measured: not just by the price of land, but by what a property makes possible. Income. Opportunity. Entrepreneurship.

One day, that includes **Soarcrest City**: a planned, solar-powered estate where homes, offices, a startup community, dining and recreation share one address. Founders could live inside it while they build. Further out, we hope to help make affordable housing and long-term home financing realistic across Africa.

To be clear: those are directions, not products. We won't date them, price them or take deposits for them until each is real and documented. For now, the work is simple. Vet properly, verify properly, protect the client.

Section 10: Closing CTA

Headline: Come and talk to us. See if it feels right.

Bring your budget, your goal and your doubts. Especially the doubts.

Button: Book a Free Discovery Call

PAGE 3: SERVICES

Page job: explain exactly what Soarcrest does, answer "what am I paying for?", and send every reader to the call.

Section 1: Hero

Headline: What you're actually paying us to do.

Subheadline: Finding the property is the easy part. Making sure it's real, sound, fairly priced and properly transferred is the part that protects your money. Here's the whole job, laid out.

Button: Book a Free Discovery Call

Section 2: The one-line version

We're a property **brokerage**. That means we sit between sellers (owners and developers) and buyers, and we earn a commission when a deal completes. Our niche is **investment-grade residential property**: homes bought for rental income, short-let income or appreciation.

What makes us different is the order we do things in, and how much of it you can see.

Section 3: The services

1. Discovery and Investment Brief

Headline: We start with you, not with a listing.

Before we show you anything, we sit down (on a call, wherever you are) and work out: what income you want, over what period, how much risk you can stomach and what you're not willing to risk. All of it goes into a one-page brief that you sign off.

What you get: a written brief that every search, shortlist and negotiation is measured against.

---

2. Dedicated Search and Shortlist

Headline: A managed search, not a list of ads.

We source options against your brief, including properties from our direct relationships with owners and developers, and from other brokerages. You score each shortlisted property from 1 to 10. Below your threshold, we keep searching. Above it, we move to full vetting.

Serious buyers fund this with a **search and vetting fee**. We charge it because proper searching takes paid time from people who go and look, and because it lets us commit real effort to buyers who are serious. **[NEED FACT: fee amount, what it covers, refund terms. Brand guide says partly refundable if Soarcrest does not deliver.]**

What you get: a scored shortlist with reasons, and an accountable search.

---

3. Property Vetting

Headline: We go and look at the plumbing.

Every property is inspected, in person or by live video, before it's shown to you as a serious option. We check:

- Roofing
- Plumbing
- Electrical systems
- Structure
- Interior condition

Then we write it all up.

What you get: a written condition report, photos, a video walk-through and a virtual tour. If a property is unfinished, we may show an AI-generated render so you can picture the finished result. It will always be clearly labelled as a render, never passed off as the real thing.

---

4. Title and Legal Verification

Headline: Paper checks before money moves.

A property can look perfect and still carry a problem in its documents. So an **independent solicitor** reviews the document chain, and the title is searched at the land registry (AGIS, in the FCT) before further payment is made.

Things the check looks at include: whether the seller's ID matches the name on the title, whether ground rent is current, whether the survey plan matches the plot, what consents exist and what's still outstanding, and whether there are any encumbrances or acquisition notices.

What you get: the registry search results and a written solicitor's opinion, shared with you before the main payment.

A note we'll always repeat: we coordinate verification, and the solicitor on your deal decides what applies. We don't give legal advice.

---

5. Negotiation and Deal Structuring

Headline: Strong terms, fairly won.

We negotiate price and basic terms on your behalf, push for fixed-price contracts with a written variation clause, and, where it makes sense, payments staged against milestones rather than one big transfer.

What you get: an offer letter, receipts, and terms you understand before you sign.

---

6. Co-Investment Structuring

Headline: Own a share of a real property, with people you can name.

Pooling money is how many people get into property. We make it safe: a written co-ownership agreement covering each person's share, how decisions are made, who manages the property, what happens when someone wants out or stops contributing, and how income and costs are split.

Soarcrest can then manage the asset and the relationship between co-owners on an ongoing basis. **[NEED FACT: management fee terms. Internal discussion mentioned roughly 20 to 25% of annual rent; confirm before publishing any figure.]**

What you get: a structured, documented, managed shared purchase.

---

7. Diaspora Remote Buying

Headline: Buy from abroad without trusting a stranger's WhatsApp.

Video call with a named advisor. Live video inspections you can watch as they happen. Registry search and solicitor's opinion before you pay. Payment instructions confirmed on a recorded call and in writing. Receipts returned within one working day. A photographed handover.

If powers of attorney, foreign-currency payments or tax in your country of residence come up, we'll refer you to qualified professionals, not guess.

What you get: the whole process, handled end-to-end, with proof at each stage.

---

8. Transaction Tracker

Headline: "What's happening with my property?" Never a mystery.

You can see every stage of your purchase: search, vetting, title, payment, consent, handover. Documents attached to each stage.

[NEED FACT: confirm tracker is live before publishing this section. If still in development, move it to "coming soon" or remove.]

---

9. After-Sale Care and Property Management (optional)

Headline: We don't disappear after the commission.

A check-in after completion **[NEED FACT: confirm the 90-day post-completion check-in is a firm commitment]**. If you'd like us to keep looking after the asset, an optional management agreement covers maintenance and periodic owner reports, with photos and an income statement.

Section 4: Professional media (short block)

Headline: See it properly before you commit.

Our in-house photography, video and virtual tours exist for a practical reason: so you can make a confident decision, wherever you are. Not so a house can look better than it is.

Section 5: What this costs

Headline: Let's talk about money, because you're wondering.

Here's the structure, in plain terms:

What	Who normally pays	Notes
Discovery call	Nobody. It's free	No obligation
Search and vetting fee	You, if you proceed	**[NEED FACT: amount and refund terms]**
Brokerage commission	Per agreement, often the seller, sometimes shared	We state it in writing
Legal, consent, registration, stamp duty, survey	Usually the buyer	Fees vary. We'll get fixed quotes and confirm current FCT charges before quoting numbers
Property management (optional)	You, if you choose it	Agreed upfront

Beyond the price of the property itself, expect additional purchase costs. We'll walk through them on the call so nothing surprises you on completion day. We won't quote a percentage until it's been confirmed against current Abuja schedules.

Section 6: Honest limits

Headline: What we don't do.

- We don't guarantee returns. Nobody honest can.
- We don't give legal or tax advice. We bring in solicitors and tax advisers who do.
- We don't take payments into personal accounts, ever.
- We don't take reservations or deposits for Soarcrest City. It's a plan, not a product.

Section 7: Closing CTA

Headline: Not sure which of these you need? Good. That's what the call is for.

Tell us where you are, and we'll tell you where to start.

Button: Book a Free Discovery Call

PAGE 4: PROPERTIES (LISTINGS)

Page job: show real inventory with proof attached, and turn "I like that one" into a booked call.

Build note: Every listing is pulled from the "Listings" tab of the Google Sheet (see Part 3). Nothing appears here that has not been inspected, and the page should never show invented properties. If no listings are live at launch, show the empty state below.

Section 1: Hero

Headline: Properties we'd put our own name on.

Subheadline: Every property here has been looked at by a person, not just photographed by one. Each one shows what we've checked, and what we haven't yet.

Section 2: How to read these listings

Headline: A quick guide, so you read these like an investor.

- **Inspection status** tells you whether we have physically or virtually inspected the property, and whether the written condition report is available.
- **Title status** tells you the truth: *Not yet searched*, *Search in progress* or *Solicitor's opinion available*. We only say "title verified" when a written opinion exists.
- **Rent figures** are always labelled **gross** or **net**, and marked as *asking*, *agreed* or *achieved*. Gross is before costs. Net is after service charges, repairs, vacancy and tax.

- **Renders** (computer-generated images of finished homes) are always labelled as renders.

Section 3: Filters

Filter labels: Location (district) · Price range · Property type · Bedrooms · Status (completed / off-plan) · Inspection status · Investment goal (rental / short-let / appreciation)

Section 4: Listing card template

Each card shows:

- Photo (or clearly labelled render)
- **Price: ₦** [price] (use units: **₦**120M)
- **Location:** District, Abuja
- **Type and size:** e.g. 3-bed terrace, [size]
- **Status badge:** Completed / Off-plan
- **Inspection badge:** Inspected, report available / Inspection pending
- **Title badge:** Not yet searched / Search in progress / Solicitor's opinion available
- **Income snapshot:** "Quoted rent: **₦**[amount]/year ([asking / agreed / achieved], gross)"
- **One-line investment thesis:** why this property suits a particular goal
- **Button:** Ask About This Property

"Ask About This Property" opens the Book-a-Call form with the property name and ID pre-filled in a hidden field.

Section 5: Listing detail page template

Headline: [Property name or descriptor], [District]

The numbers. Price · Quoted rent (gross, asking/agreed/achieved) · Our estimate of net income, with assumptions stated **[NEED FACT per property]** · Service charge / ground rent: **[NEED FACT per property]**

What we found. Short summary of the condition report: what's good, what needs work, what it might cost to fix.

What we've checked on the title. Plain statement of current status.

The honest bit. At least one real risk or watch-out for this specific property, and how we check it.

Who it suits. Long-let investor / short-let investor / appreciation play / pooled purchase.

Button: Book a Call About This Property

Section 6: Empty state (use if no listings are live)

Headline: Nothing here yet? That's on purpose.

We'd rather show you three properties we've properly vetted than thirty we haven't. New properties appear here as they pass inspection.

In the meantime, the fastest route is to tell us what you're looking for. We search against your brief, and sometimes the right property isn't listed publicly yet.

Button: Tell Us What You're Looking For

Section 7: For sellers and developers

Headline: Own or develop property? Let's talk.

We bring qualified, serious, pre-educated buyers to properly presented property. In-house photography, video and virtual tours, direct communication and a buyer base that understands process.

If you have a property you'd like us to represent, tell us about it.

Button: List a Property With Us *(opens the same form with "I'm a seller or developer" preselected)*

Section 8: Closing CTA

Headline: Found something you like? Don't pay a kobo yet.

Talk to us first. We'll tell you what we know, what we don't yet and what we'd check next.

Button: Book a Free Discovery Call

PAGE 5: CONTACT

Page job: remove the last friction. Tell people what happens after they submit, and present the form.

Section 1: Hero

Headline: Let's talk. No pitch, no pressure.

Subheadline: Fill in the short form below. A named person at Soarcrest will get back to you to arrange your free discovery call.

Section 2: What happens next

Headline: Here's exactly what happens after you hit submit.

1. You get a confirmation. On screen, and by email, straight away.

2. A real person reaches out. We'll contact you **[NEED FACT: response window, e.g. within one working day. Only promise what the team can keep]** using the method and time you choose.

3. We have the conversation. We'll talk about what you want to buy, what you want it to earn, your timeline and any doubts. If you're abroad, we'll schedule around your time zone.

4. You decide what's next. If we're a fit, we explain how a search works and what the search and vetting fee covers. If we're not, we'll tell you honestly, and point you somewhere useful where we can.

At no point before or during this call are you asked to pay anything.

Section 3: The form

Headline: Book your free discovery call

(See Part 2 for the full form specification. The form sits here, and also opens as a pop-up or dedicated page from every button on the site.)

Section 4: Reassurance beside the form

"Is this for real?" Yes. You can ask for our registration documents on the call.

"Will you spam me?" No. We use your details to arrange your call and follow up on it. That's it.

"What if I'm not ready to buy yet?" Most people on a first call aren't. It's a conversation, not a commitment.

"What if I'm not sure what I want?" Then say that in the form. That's the exact situation the call is built for.

Section 5: Other ways to reach us

Phone / WhatsApp: **[NEED FACT]** · Email: **[NEED FACT]** · Office: **[NEED FACT]** · Hours: **[NEED FACT]**

A note for AI Studio: the form is the primary action. Keep direct contact details smaller and below it.

PART 2: THE BOOK-A-CALL FORM

Form strategy

One form, many doors. Every button on the site (nav, hero, service sections, listing cards, footer) opens this same form. The form lives as a pop-up on every page and as a full section on the Contact page.

Three short steps, not one long wall. A long form scares people off, so the form is split into three steps with a progress bar. Only the fields marked **required** must be completed. Everything else helps us prepare for the call but can be skipped.

Name of the action: Free Discovery Call (the call is free, per your instruction. Nothing is asked of the visitor before it).

Form title: Book your free discovery call

Intro line above the form: Tell us a little about what you're after. The more you share, the more useful our first conversation will be. Skip anything you're not sure about.

Step 1 of 3: About you

Step heading: First, who are we talking to?

#	Field label	Type	Required	Options / notes
1	Full name	Short text	**Yes**	Placeholder: "As you'd like us to address you"
2	Email address	Email	**Yes**	Validate format
3	Phone / WhatsApp number	Phone with country-code selector	**Yes**	Helper: "Include your country code. We'll only use this to arrange your call."
4	Where are you based?	Radio	**Yes**	I'm in Nigeria / I'm outside Nigeria
5	Which country?	Short text	Only if #4 = outside Nigeria (show conditionally)	Required when shown

#	Field label	Type	Required	Options / notes
6	City	Short text	No	
7	I'm reaching out as...	Radio	No	A buyer or investor / A group pooling funds to buy together / A property owner or seller / A developer / Not sure yet

Button: Next →

Step 2 of 3: What you're looking for

Step heading: Now, what are you hoping to do?

#	Field label	Type	Required	Options / notes
8	What would you like help with?	Multi-select checkboxes	No	Finding a property to buy / Vetting a property I've already found / Checking title and documents / Buying with others (co-investment) / Buying from abroad / Property management after purchase / Listing a property with Soarcrest / I'm not sure yet, I need guidance
9	What do you want the property to do for you?	Radio	**Yes**	Long-term rental income / Short-let income / Long-term appreciation / A mix of these / I'm not sure yet

#	Field label	Type	Required	Options / notes
10	Roughly what budget are you working with?	Dropdown	**Yes**	Under ₦50M (we'll talk about pooling options) / ₦50M to ₦100M / ₦100M to ₦250M / ₦250M to ₦500M / ₦500M to ₦1B / Above ₦1B / I'd rather discuss it on the call
11	Are you investing alone or with others?	Radio	No	On my own / With others (pooling funds) / Not sure yet
12	How many people are pooling?	Number	Only if #11 = with others	Show conditionally
13	When are you hoping to buy?	Dropdown	No	Within 3 months / 3 to 6 months / 6 to 12 months / More than a year away / Just exploring
14	Any areas of Abuja you're curious about?	Multi-select	No	Maitama / Asokoro / Wuse II / Garki / Guzape / Jabi / Utako / Katampe / Life Camp / Gwarinpa / Kado / Lokogoma / Karmo / Kubwa / Lugbe / Kuje / Gwagwalada / Somewhere outside Abuja / No idea yet
15	Completed or off-plan?	Multi-select	No	Completed property / Off-plan (still being built) / Open to either / Not sure what the difference means

#	Field label	Type	Required	Options / notes
16	What's your biggest worry about buying property in Nigeria?	Multi-select	No	Fake documents or double sales / Projects that never get finished / Paying from abroad / Hidden costs / Not knowing enough / Disputes between co-owners / Something else
17	Anything else we should know?	Long text (max 1,000 characters)	No	Placeholder: "A property you've seen, a situation you're in, a question that keeps you up at night..."

Buttons: ← Back · Next →

Step 3 of 3: Your call

Step heading: Last step. When suits you?

#	Field label	Type	Required	Options / notes
18	How would you like us to call you?	Radio	No	Phone call / WhatsApp call / Video call (Google Meet or Zoom)
19	Which days work best?	Multi-select	No	Weekdays / Weekends / Either
20	What time of day?	Multi-select	No	Morning / Afternoon / Evening
21	Your time zone	Dropdown	No	Auto-detect from browser and pre-select. Helper: "Especially useful if you're abroad. We'll schedule around you."
22	How did you hear about Soarcrest?	Dropdown	No	Instagram / X (Twitter) / YouTube / LinkedIn / Google search / A friend or colleague / Other

#	Field label	Type	Required	Options / notes
23	Consent	Checkbox	**Yes**	"I agree that Soarcrest Realty can contact me about my enquiry and store the details I've shared. I understand this call is free and that I'm not committing to anything." Link: Privacy Notice

Submit button: Book My Free Discovery Call

Small print under button: We'll use your details to arrange your call and follow up on it. No spam, no handing your number around.

Hidden fields (captured automatically, not shown to the visitor)

Field	What it captures	Why
source_page	The page the visitor was on (home, about, services, properties, contact)	See which pages convert
button_label	The text of the button they clicked	See which CTAs convert
listing_id	Property ID if opened from a listing	Know exactly what they asked about
listing_title	Property name from the same listing	Same
utm_source, utm_medium, utm_campaign	From the page URL	Track which social posts or ads drive leads
referrer	Where the visitor came from	Traffic attribution
website	**Honeypot.** An invisible field that humans leave empty and bots fill in	Silent spam block

Server-side (added by the script, not the website): lead_id, submitted_at, status.

Validation and error messages

- Missing required field: "We need this one so we can reach you."
- Invalid email: "That email address doesn't look quite right. Mind checking it?"
- Invalid phone: "Please include your country code, like +234 or +44."
- Consent not ticked: "Please tick this so we can contact you about your call."
- Submission failed: "Something went wrong on our end, and your details haven't been lost. Please try again, or message us directly at **[NEED FACT: WhatsApp/email]**."
- Double-click protection: disable the submit button after the first click, and show "Sending..."

Confirmation (success state)

Headline: You're booked in. Well, almost. Here's what happens now.

Thanks, [first name]. Your details have reached us.

A named person at Soarcrest will contact you **[NEED FACT: response window]** by [their chosen method] to confirm a time for your free discovery call.

To make the most of it, think about three things:

1. What income do you want your property to produce?
2. Over how long?
3. What are you absolutely not willing to risk?

No need to prepare an answer. Just have the questions in mind.

While you wait: **"Before You Pay: The Checks Every Buyer Should Know"** *(link to the due-diligence content, once published)*

Confirmation email to the lead

Subject: Your free discovery call with Soarcrest Realty

Hi [first name],

Thanks for reaching out. Your request has reached us, and a member of our team will contact you **[NEED FACT: response window]** by [contact method] to arrange your call.

Here's a quick summary of what you told us:

- Goal: [main goal]
- Budget: [budget]

- Timeline: [timeline]

If anything changes before we speak, just reply to this email.

One promise from us: you won't be asked to pay anything before or during this first call.

Talk soon, The Soarcrest Realty Team

Soarcrest Realty is not a provider of legal, tax or investment advice. Property returns are never guaranteed.

PART 3: BACK-END BLUEPRINT

What happens behind the scenes

1. A visitor clicks **any** CTA button. The booking form opens, carrying the page name and button label with it.
2. The visitor completes the three steps and clicks submit.
3. The website runs basic checks in the browser (required fields, email format, honeypot, consent).
4. The website sends the answers to the **Google Apps Script web app URL** as a POST request.
5. The script validates again on the server, assigns a lead ID and timestamp, and writes a new row to the **Leads** tab of the Google Sheet.
6. The script emails the Soarcrest team a notification and emails the lead a confirmation.
7. The script replies to the website with a success message, and the website shows the confirmation screen.
8. Separately, when the Properties page loads, the website asks the same script for the list of published properties, which the script reads from the **Listings** tab.

Result: the Google Sheet is your CRM and your listings editor. Add a row to Listings and a property appears on the website. No code changes needed.

Google Sheet structure

Create **one Google Sheet** named **Soarcrest Leads & Listings** with three tabs.

Tab 1: Leads (written by the script)

The script creates the headers automatically if they don't exist. Columns, in order:

`lead_id` · `submitted_at` · `status` · `full_name` · `email` · `phone` · `based_in` · `country` · `city` · `role` · `services_needed` · `main_goal` · `budget` · `pooling` · `pool_size` · `timeline` · `areas` · `property_stage` · `concerns` · `notes` · `contact_method` · `preferred_days` · `preferred_time` · `timezone` · `heard_from` · `consent` · `listing_id` · `listing_title` · `source_page` · `button_label` · `utm_source` · `utm_medium` · `utm_campaign` · `referrer` · `assigned_to` · `call_date` · `outcome` · `followup_notes`

Team-managed columns (you fill these in, the script never touches them): `assigned_to`, `call_date`, `outcome`, `followup_notes`.

Status dropdown (add data validation to the `status` column): New → Contacted → Call Booked → Call Done → Brief Signed → Search Fee Paid → Shortlisting → Vetting → Offer → Title Check → Completed → Not a Fit → No Response

That status list mirrors your real buying journey, so the sheet doubles as a pipeline.

Suggested conditional formatting: highlight rows where `status` = New for more than 24 hours; highlight `based_in` = outside Nigeria so diaspora leads get time-zone-aware follow-up.

Tab 2: Listings (written by you, read by the website)

Columns: `listing_id` · `published` (TRUE/FALSE) · `title` · `district` · `price_ngn` · `property_type` · `bedrooms` · `size` · `stage` (Completed / Off-plan) · `inspection_status` (Inspected, report available / Inspection pending) · `title_status` (Not yet searched / Search in progress / Solicitor's opinion available) · `rent_ngn_per_year` · `rent_basis` (gross / net) · `rent_status` (asking / agreed / achieved) · `thesis` · `risk_note` · `image_urls` (comma-separated) · `report_url` · `sort_order`

Rule: only rows with `published` = TRUE appear on the site. This keeps unvetted properties off the page, in line with your brand promise.

Tab 3: Config (optional)

Holds anything you may want to change without touching code: notification email, response-window text, and so on.

The Apps Script

This is a working reference version. You can paste it into the Apps Script editor yourself, or give it to Google AI Studio to adapt (a ready prompt is further down).

Set up:

1. Open the Google Sheet, then **Extensions → Apps Script**.

2. Delete the default code and paste the script below.
3. Replace `SHEET_ID` (the long string in the Sheet's URL between `/d/` and `/edit`) and `NOTIFY_EMAIL`.
4. Click **Deploy → New deployment → Web app**. Set *Execute as*: **Me**. Set *Who has access*: **Anyone**.
5. Approve the permissions when asked, then copy the **Web app URL**.
6. Paste that URL into Google AI Studio as the form's endpoint.

```
var SHEET_ID = 'PASTE_SHEET_ID_HERE';
var NOTIFY_EMAIL = 'PASTE_TEAM_EMAIL_HERE';
var FROM_NAME = 'Soarcrest Realty';
var RESPONSE_WINDOW = 'shortly'; // replace once confirmed, e.g. 'within one
working day'

var LEAD_HEADERS =
['lead_id','submitted_at','status','full_name','email','phone','based_in','co
untry','city','role','services_needed','main_goal','budget','pooling','pool_s
ize','timeline','areas','property_stage','concerns','notes','contact_method',
'preferred_days','preferred_time','timezone','heard_from','consent','listing_
id','listing_title','source_page','button_label','utm_source','utm_medium','u
tm_campaign','referrer','assigned_to','call_date','outcome','followup_notes']
;

function doPost(e) {
  var lock = LockService.getScriptLock();

Soarcrest Realty', body: body, name: FROM_NAME });
}

function out(obj) {
  return
ContentService.createTextOutput(JSON.stringify(obj)).setMimeType(ContentServi
ce.MimeType.JSON);
}
```

Important technical notes:

- The website must send the POST with the header `Content-Type: text/plain;charset=utf-8` (and a JSON string as the body). This avoids browser pre-flight (CORS) problems with Apps Script. The script still parses it as JSON.
- After **any** change to the script, you must create a **new deployment version** (Deploy → Manage deployments → Edit → New version). Otherwise the website keeps talking to the old code.
- Apps Script has daily email limits on free Google accounts. That's plenty for early volumes. If lead volume grows, consider a Google Workspace account.
- Personal data (names, phone numbers, budgets) will sit in this Sheet. Keep sharing restricted to named team members and don't make the sheet link-shareable.

Website-side submission logic (for Google AI Studio)

```
const ENDPOINT = 'PASTE_APPS_SCRIPT_WEB_APP_URL_HERE';

async function submitLead(payload) {
  const res = await fetch(ENDPOINT, {
    method: 'POST',
    headers: { 'Content-Type': 'text/plain;charset=utf-8' },
    body: JSON.stringify(payload)
  });
  return res.json(); // { ok: true, lead_id } or { ok: false, error }
}

async function loadListings() {
  const res = await fetch(ENDPOINT + '?action=listings');
  const data = await res.json();
  return data.listings || [];
}
```

Testing checklist (do this before launch)

1. Submit the form with every field filled. Check the row lands in **Leads** with each value in the right column.
2. Submit with only the required fields. Check optional columns stay blank, not broken.
3. Submit with "outside Nigeria" selected. Confirm the team email subject shows **[DIASPORA]**.
4. Open the form from a listing card. Confirm `listing_id` and `listing_title` arrive.
5. Open the form from each page's nav button. Confirm `source_page` and `button_label` are correct.
6. Fill the hidden honeypot field manually (in developer tools). Confirm **no** row is created.
7. Enter a value starting with `=` in the notes field. Confirm it's saved as plain text.
8. Add a row to **Listings** with `published` = TRUE. Confirm it appears on the Properties page. Set it to FALSE and confirm it disappears.
9. Test on a phone, on a slow connection, and double-click the submit button. Confirm only one row is created.
10. Confirm the lead's confirmation email arrives, and doesn't land in spam.

Ready-to-paste prompt for Google AI Studio

Copy everything in this block into Google AI Studio, then paste the Part 1 copy beneath it (or upload this document).

Build a 5-page website for Soarcrest Realty, an Abuja-based investment property brokerage.

PAGES: Home, About, Services, Properties, Contact. Use the exact copy I provide. Do not rewrite or shorten it. Where the copy says [NEED FACT], show a clearly visible placeholder in development and flag it so I can fill it before launch.

SINGLE CONVERSION GOAL: every call-to-action button on every page opens the same 'Book a Free Discovery Call' form. Nav bar has a persistent button that does this. On mobile, keep a sticky bottom button. Each button passes its own label and the current page name into hidden form fields (button_label, source_page).

BOOKING FORM: a 3-step form with a progress bar, shown as a modal on every page and inline on the Contact page. Fields, options, required/optional status, conditional fields, validation messages, success screen and confirmation text are specified in Part 2 of the copy document. Follow them exactly. Include a hidden honeypot field named 'website'. Capture utm_source, utm_medium, utm_campaign and document.referrer from the URL on page load. Disable the submit button after the first click.

SUBMISSION: on submit, POST a JSON object (keys exactly matching the field names in Part 3: full_name, email, phone, based_in, country, city, role, services_needed, main_goal, budget, pooling, pool_size, timeline, areas, property_stage, concerns, notes, contact_method, preferred_days, preferred_time, timezone, heard_from, consent, listing_id, listing_title, source_page, button_label, utm_source, utm_medium, utm_campaign, referrer, website) to a Google Apps Script web app URL stored in a single constant called ENDPOINT. Send header 'Content-Type: text/plain;charset=utf-8' and a JSON.stringify body. Multi-select answers are sent as arrays. Expect a JSON reply { ok: true, lead_id } or { ok: false, error }. Show the error message on failure and keep the visitor's answers. Show the success screen on success. I will supply the real URL after deploying the script.

PROPERTIES PAGE: on load, fetch ENDPOINT + '?action=listings' and render the returned rows as listing cards using the card template in the copy. Each card's button opens the booking form with listing_id and listing_title filled in. Add filters (district, price range, type, bedrooms, stage, inspection status). If the array is empty, show the empty-state copy. Never display invented properties.

APPS SCRIPT: also generate the Google Apps Script that receives the form (doPost) and serves the listings (doGet) using the reference script in Part 3 as the specification. Sheet tabs: Leads, Listings. Include server-side validation, honeypot handling, formula-injection protection, a lead ID, a

```
team notification email and a lead confirmation email.

DESIGN: take the look from the logo: deep navy and muted gold on a clean
white or warm off-white background (approximate navy #0B1F44, approximate
gold #B8925A. Please match against the logo image). Elegant serif for
headlines, a clean sans-serif for body text. Premium, calm, trustworthy,
uncluttered, with plenty of white space. Executive, not flashy. Do not use
stock imagery of luxury interiors, emojis or hype graphics. Use the logo in
the header and footer. Fully responsive and fast on mobile.

ACCESSIBILITY AND SEO: semantic HTML, labelled form fields, visible focus
states, sufficient contrast, descriptive page titles and meta descriptions
per page, alt text on images.

FOOTER: include the disclaimer exactly as written in the copy.
```

Before you launch: the [NEED FACT] list

These are the facts only you can supply. Until each is real and documented, the related copy should stay hidden or neutral.

1. Company RC number, office address, phone/WhatsApp, email
2. SCUML registration (show only once registered) and any professional memberships that apply
3. Search and vetting fee: amount, what it covers, exact refund terms
4. Response window after form submission (promise only what the team can keep)
5. Founder story and team names, roles and photos
6. Real testimonials with written permission (or hold the section back)
7. Whether the transaction tracker is live
8. Whether the 90-day post-completion check-in is a firm commitment
9. Co-investment management fee terms (the internal 20 to 25% figure is only a discussion point)
10. A sample, anonymised condition report to link from the Home page
11. Privacy notice text for the form's consent link

Last check: read every page once more against your own compliance rules. No guaranteed returns. No "title verified" without a written solicitor's opinion. No "government approved" without proof. No competitor named. Every rent or yield figure labelled gross or net.
